

APP FLOW DOCUMENT

Project Name

WorkForce360

Document Purpose

This document defines every user journey, screen, navigation path, button behavior, success state, error state, and empty state within WorkForce360.

The objective is to provide sufficient detail for designers, developers, and AI coding agents to implement the application without making assumptions.

User Roles

Admin

Responsibilities:

- Employee Management
 - Attendance Management
 - Payroll Management
 - Client Management
 - Contract Management
 - Invoice Generation
 - Expense Management
 - Reports
 - Settings
-

Worker

Responsibilities:

- View Profile
- View Attendance
- View Payroll
- Download Payslips

- Change Password
-

APPLICATION ENTRY FLOW

Screen: Login Page

Purpose

Authenticate Admin and Worker users.

Fields

Employee ID / Username

Password

Buttons

Login

Show Password

Actions

User enters credentials.
