

Product Requirements Document (PRD)

Product Name

WorkForce360

One-Line App Idea

A comprehensive workforce, payroll, contract, invoice, and expense management platform designed for staffing agencies to automate employee administration, attendance tracking, salary processing, client billing, and business reporting.

Product Overview

WorkForce360 is a web-based workforce management solution built specifically for staffing and manpower supply companies. The platform digitizes employee records, attendance management, payroll processing, invoice generation, expense tracking, and client contract management within a centralized system.

The product eliminates manual paperwork and spreadsheet-based operations by automating complex payroll calculations, statutory deductions, employer contributions, invoice creation, and reporting processes.

The primary objective is to reduce administrative workload, improve calculation accuracy, maintain historical records, and provide complete operational visibility for staffing agencies.

Target Users

Primary Users

Admin

The administrator is responsible for managing the complete workforce and business operations.

Responsibilities include:

- Employee onboarding
- Attendance management
- Payroll generation
- Salary revisions

- Client management
 - Contract management
 - Invoice generation
 - Expense tracking
 - Report generation
 - Document management
-

Workers

Workers are contract-based employees employed by the staffing agency.

Workers can:

- Access their profile
- View attendance history
- View salary records
- Download payslips
- Change their password

Workers cannot modify company records.

Problem Statement

Staffing agencies often manage employee records, attendance, salary calculations, invoices, and expenses using paper registers and spreadsheet-based systems.

This manual process creates several operational challenges:

- Time-consuming payroll calculations
- Human errors in salary processing
- Complex statutory deduction calculations
- Difficulty maintaining employee records
- Lack of centralized document storage
- Delayed invoice generation
- Poor visibility into business expenses
- Difficulty generating reports and analytics
- Absence of historical payroll tracking
- Risk of data loss and duplication

WorkForce360 aims to solve these problems through automation and digitization.

Product Vision

To create a centralized workforce management ecosystem that automates payroll processing, employee administration, invoice generation, and financial reporting for staffing agencies while reducing operational complexity and improving business efficiency.

User Roles

Role 1: Admin

Permissions:

- Full system access
 - Create, edit, and manage employees
 - Upload employee documents
 - Record attendance
 - Enter overtime hours
 - Manage salary structures
 - Generate payroll
 - Generate payslips
 - Manage clients
 - Manage contracts
 - Generate invoices
 - Manage expenses
 - Export reports
 - Reset worker passwords
-

Role 2: Worker

Permissions:

- Login using employee credentials
- View profile
- View attendance
- View payroll history
- Download payslips
- Change password

Restrictions:

- Cannot edit records
- Cannot modify attendance

- Cannot generate payroll
 - Cannot access business reports
-

Core Features

1. Authentication & Access Management

Features:

- Secure admin login
 - Worker login using Employee ID
 - Password change functionality
 - Admin password reset capability
 - Role-based access control
-

2. Worker Management

Features:

- Employee onboarding
- Employee profile management
- Salary structure assignment
- Employment history tracking
- Family information management
- Education details management
- Employee status tracking

Employee statuses:

- Active
 - Inactive
 - Resigned
 - Terminated
-

3. Document Management

Store and manage:

- Aadhaar Card
- PAN Card
- Employee Photograph
- Bank Passbook

- Joining Form
 - PF Documents
 - ESIC Documents
-

4. Attendance Management

Attendance Types:

- Present
- Half Day
- Absent

Features:

- Daily attendance entry
 - Overtime hour recording
 - Monthly attendance summary
 - Attendance history tracking
-

5. Payroll Management

Automated payroll generation based on:

- Fixed Gross Salary
- Basic Salary
- HRA
- Conveyance
- Tea Allowance
- Attendance
- Overtime Hours
- Special Allowance
- PF Deduction
- ESIC Deduction
- Professional Tax

Features:

- Monthly payroll generation
 - Salary revision history
 - Payroll freeze mechanism
 - Historical payroll preservation
-

6. Payslip Generation

Features:

- Monthly payslip generation
 - PDF export
 - Historical payslip access
 - Locked payroll records
-

7. Client Management

Features:

- Client registration
 - Client profile management
 - Contact information storage
 - Historical client records
-

8. Contract Management

Features:

- Contract creation
 - Contract updates
 - Contract history tracking
 - Service charge configuration
 - GST configuration
 - Contract validity management
-

9. Invoice Generation

Features:

- Monthly invoice generation
 - Service charge calculation
 - GST calculation
 - Invoice freeze mechanism
 - Invoice history management
 - PDF invoice export
-

10. Expense Management

Automatic Expenses:

- Payroll expenses
- Employer contributions

Manual Expenses:

- Transportation
- Administrative expenses
- Miscellaneous expenses

Features:

- Expense categorization
 - Expense reporting
 - Expense history tracking
-

11. Reports & Analytics

Reports:

- Attendance Reports
- Payroll Reports
- Expense Reports
- Invoice Reports
- Revenue Reports
- Profit Reports

Export Options:

- PDF
 - Excel
-

12. Worker Self-Service Portal

Features:

- Attendance viewing
- Salary history viewing
- Payslip download
- Profile access
- Password management

User Stories

Admin User Stories

Employee Management

As an admin, I want to onboard new employees so that workforce records can be maintained digitally.

As an admin, I want to update employee information so that records remain accurate.

As an admin, I want to upload employee documents so that all records remain centralized.

Attendance Management

As an admin, I want to record daily attendance so that payroll calculations can be automated.

As an admin, I want to record overtime hours so that overtime wages can be calculated accurately.

Payroll Management

As an admin, I want to generate monthly payroll automatically so that salary calculations are accurate and efficient.

As an admin, I want payroll records to be locked after generation so that historical records remain unchanged.

Client & Contract Management

As an admin, I want to manage client contracts so that invoice calculations follow contractual agreements.

Invoice Management

As an admin, I want to generate invoices automatically so that client billing becomes faster and more accurate.

Reporting

As an admin, I want to generate business reports so that I can analyze workforce and financial performance.

Worker User Stories

As a worker, I want to log in securely so that I can access my records.

As a worker, I want to view my attendance so that I can verify attendance accuracy.

As a worker, I want to view my salary details so that I can understand my earnings.

As a worker, I want to download my payslips so that I can maintain salary records.

As a worker, I want to change my password so that my account remains secure.

MVP Scope

Version 1 MVP includes:

- Authentication System
 - Worker Management
 - Employee Document Management
 - Attendance Management
 - Overtime Tracking
 - Payroll Engine
 - Salary Revision History
 - Payroll Freeze System
 - Payslip Generation
 - Client Management
 - Contract Management
 - Invoice Generation
 - Invoice Freeze System
 - Expense Management
 - Reports & Analytics
 - PDF Export
 - Excel Export
 - Worker Self-Service Portal
-

Success Metrics

Operational Efficiency

- Reduce payroll processing time by at least 80%
- Reduce invoice generation time by at least 80%

- Reduce manual record management effort by at least 70%
-

Accuracy Metrics

- Achieve 100% payroll calculation consistency
 - Eliminate manual calculation errors
 - Maintain complete historical payroll records
-

Digitization Metrics

- 100% employee records digitized
 - 100% payroll records digitized
 - 100% invoice records digitized
 - 100% document storage centralized
-

Business Metrics

- Monthly payroll generation completed within minutes
 - Monthly invoice generation completed within minutes
 - Real-time visibility into company expenses and profitability
-

Future Scope

- SMS Notifications
 - Email Notifications
 - Mobile Application
 - Biometric Attendance Integration
 - QR-Based Attendance
 - Employee Leave Management
 - Multi-Admin Support
 - Advanced Financial Analytics
 - Automated Tax Reports
 - Client Portal
 - AI-Powered Workforce Insights
 - Cloud Backup Automation
-

Product Objective

To transform manual workforce, payroll, and billing operations into a centralized digital platform that improves operational efficiency, calculation accuracy, financial visibility, and record management for staffing agencies.
