

UI/UX BRIEF

Project Name

WorkForce360

Document Purpose

This UI/UX Brief defines the complete visual design system, interaction patterns, layout rules, responsive behavior, component standards, and user experience guidelines for WorkForce360.

The document is intended to be implementation-ready and should be followed exactly during frontend development.

The goal is to create a professional workforce, payroll, invoice, and contract management platform that feels modern, corporate, reliable, and efficient.

Design Style

Design Personality

Modern Corporate Dashboard

The interface should feel:

- Professional
- Trustworthy
- Organized
- Efficient
- Data-driven
- Business-oriented

The design must avoid:

- Excessive animations
- Gaming-style interfaces
- Consumer-app aesthetics
- Overly colorful components
- Decorative illustrations

The overall experience should resemble modern business platforms such as:

- Zoho People
 - Zoho Payroll
 - FreshBooks
 - Razorpay Dashboard
-

Design Principles

1. Clarity First
 2. Information Before Decoration
 3. Fast Data Access
 4. Consistent Navigation
 5. Minimal User Confusion
 6. Enterprise Readability
 7. Mobile-Friendly Worker Experience
 8. Desktop-Optimized Admin Experience
-

Color Palette

Primary Color

Deep Corporate Blue

Purpose:

- Primary actions
- Navigation highlights
- Active states

Suggested:

#2563EB

Secondary Color

White

Purpose:

- Backgrounds
- Cards
- Forms

Suggested:

#FFFFFF

Neutral Colors

Light Gray

#F8FAFC

Medium Gray

#E5E7EB

Dark Gray

#374151

Status Colors

Success

#16A34A

Warning

#F59E0B

Danger

#DC2626

Info

#0EA5E9

Typography

Font Family

Inter

Used across entire application.

Heading Hierarchy

Page Title

- Bold
- Large
- Most prominent element

Section Title

- Semi-Bold

Card Title

- Medium Weight

Body Text

- Regular Weight

Helper Text

- Smaller
 - Muted Gray
-

Typography Rules

Important financial numbers:

- Bold
- Larger font size

Examples:

- Payroll Cost
- Revenue
- Profit
- Invoice Amount

Must stand out visually.

Layout Rules

Global Structure

Admin Layout

```
-----  
Top  Navbar  
-----
```

```
Sidebar | Main Content Area  
Sidebar | Main Content Area  
Sidebar | Main Content Area
```

Sidebar

Collapsible

Desktop:

- Expanded by default
- Can collapse

Mobile:

- Drawer Navigation

Content Container

Centered layout

Consistent padding

Consistent spacing

No content touching screen edges.

Dashboard Design Direction

Dashboard Layout

Row 1

KPI Cards

Total Workers

Active Workers

Present Today

Absent Today

Row 2

Financial KPI Cards

Payroll Cost

Revenue

Expenses

Profit

Row 3

Charts

Attendance Trend

Revenue Trend

Expense Trend

Profit Trend

Row 4

Recent Activity

Recent Employees

Recent Payroll Runs

Recent Invoices

KPI Card Design

Each card contains:

- Title
- Value
- Trend Indicator

Example:

Total Workers

67

+8% from previous month

Trend Indicators

Positive

Green

Negative

Red

Neutral

Gray

PT

Net Salary

Form Design Standards

Layout

Desktop

Two-column layout

Mobile

Single-column layout

Multi-Step Forms

Used For:

Employee Onboarding

Steps:

1. Personal Information
2. Family Information
3. Education Information
4. Employment Information
5. Salary Information
6. Document Upload

Validation

Real-Time Validation Required

Examples:

- Aadhaar validation
- Email validation
- Phone validation
- Required field validation

Errors should appear immediately.

Button Design

Primary Button

Purpose:

- Save
- Submit
- Generate

Style:

- Solid Blue
 - White Text
-

Secondary Button

Purpose:

- Cancel

- Back

Style:

- Gray Outline
-

Danger Button

Purpose:

- Deactivate
- Delete

Style:

- Red
-

Confirmation Dialog Standards

Mandatory For:

- Generate Payroll
- Generate Invoice
- Deactivate Employee
- Delete Expense
- Contract Deactivation

Dialog must display:

- Action Summary
 - Confirmation Message
 - Confirm Button
 - Cancel Button
-

Card Design Standards

Cards should have:

- White background
- Rounded corners
- Subtle shadow
- Comfortable spacing

Avoid heavy shadows.

Document Upload Design

Display:

File Preview

File Name

Upload Status

Remove Button

Replace Button

Supported Documents

- Employee Photo
 - Aadhaar
 - PAN
 - Passbook
 - Joining Form
 - PF Document
 - ESIC Document
-

Payroll UX Rules

Generate Payroll Flow

Step 1

Select Month

Step 2

Calculate Payroll

Step 3

Preview Payroll

Step 4

Confirm Generation

Step 5

Freeze Payroll

Step 6

Generate Payslips

Important:

Payroll preview must show full salary breakdown before confirmation.

Invoice UX Rules

Generate Invoice Flow

Step 1

Select Contract

Step 2

Calculate Invoice

Step 3

Preview Invoice

Step 4

Confirm Generation

Step 5

Freeze Invoice

Step 6

Generate PDF

Important:

Invoice preview should visually match final PDF invoice.

Empty State Design

Use simple professional messaging.

Examples:

No Employees Found

No Attendance Records Available

No Invoices Generated Yet

No Expenses Recorded

Do Not Use

- Cartoons
 - Illustrations
 - Decorative graphics
-

Error State Design

Consistent Error Component

Examples:

Invalid Credentials

Network Error

File Upload Failed

Payroll Already Generated

Invoice Already Generated

Success State Design

Consistent Success Toast

Examples:

Employee Added Successfully

Attendance Saved Successfully

Payroll Generated Successfully

Invoice Generated Successfully

Password Updated Successfully

Mobile Behavior

Admin

Responsive Dashboard

Sidebar becomes drawer.

Tables become horizontally scrollable.

Worker Portal

Mobile-first experience.

Bottom Navigation Required.

Navigation Items:

Home

Attendance

Branding Guidelines

Logo Type

Icon + Text

Logo Placement

Login Page

Sidebar

Invoices

Payslips

Reports

PDF Exports

Accessibility Standards

Minimum contrast compliance.

Keyboard navigation support.

Clear focus states.

Readable typography.

Large clickable touch targets.

AI Development Constraints

The UI implementation must not invent:

- New pages
- New colors
- New layouts
- New navigation items
- Additional workflows

All screens must follow the App Flow Document.

All components must follow this UI/UX Brief exactly.

Any undefined UI behavior must default to: Professional Corporate Dashboard standards inspired by Zoho Payroll and Zoho People.
